

"The quality, therapeutic concentration, and affordability of a nutritional product can, and often does, mean the difference between lethargy and energy, sickness and health, and, quite literally, life and death. I don't want anyone to be tired, sick, or dead because they could not obtain or afford the best possible product. Loyalties can be divided. I want to make it clear where mine lies. My loyalty is to those who want to thrive, and those whose life situation requires them to thrive. My loyalty is to the end user. My loyalty is to you. In my life now, and one day when I look back upon my life, that will have value to me incomparable to any amount of money, investors, or fame."

Dr. Jameth Sheridan – Doctor of Holistic Medicine (D.H.M.), Naturopath, and Hard-Core Herbal Medicine Researcher

Green foods are perhaps the most beneficial foods on the planet and the single most important addition to a diet you can make. They are foundational. For nearly three decades, I have deeply and passionately immersed myself full time into providing the best possible foundation. **My deepest passion is for the Earth and all of its inhabitants to be healthy on a core level.** Mother Nature gave us the substances we need to support health. It is my life path duty and my great honor to assemble them for you. **Compromise is not an option. Hype is Nothing. Substance is Everything!**
