

USAGE: Take 1/4 teaspoon, preferably dissolved in fluid or as directed by your qualified health care consultant.

Inositol is readily absorbed and used to produce the active inositides as necessary.* The various forms of inositol (phosphatidylinositol and inositides such as IP3) are active in cell-to-cell communication, (e.g., transmission of nerve impulses).* Tissues that are affected include the brain, liver and muscles.* Inositol is an indirect source of glucuronic acid, which is essential to liver detoxification.* Inositol is derived from rice bran and is made in Japan by Tsuno Rice Fine Chemicals Co., Ltd.

Keep out of the reach of children.
