

Suggested usage: 1 cello pack per day or as directed by a health professional.

Cautions: As with any supplement, consult your health professional before use if you are pregnant, breastfeeding, or trying to conceive, or if you are taking medication, have a medical condition, or anticipate a surgery. Keep out of the reach of children.

Three Brains™ is a line of supplements designed to support the critical relationship between our head, heart, and gut. Together, these three “brains” influence our mental health and cognition.

3 Brains Total™ takes the guesswork out of supporting three-brain health.* Each convenient daily cello pack includes a combination of five essential supplements that support brain and cognitive function, as well as cardiovascular and intestinal/gastrointestinal health.*

Manufactured by Natural Factors to ensure safety and potency in accordance with Good Manufacturing Practices (GMP) of the FDA and Health Canada.

Sealed for your protection. Do not use if seal is broken. For freshness, store in a cool, dry place. No refrigeration required.

A WHOLE-BODY APPROACH TO BALANCED BRAIN HEALTH AND WELL-BEING*

Most of us tend to think of the brain as an isolated control center for all our other organs. But the fact is, our inner workings are far more synergistic. According to Karen Jensen, naturopathic doctor and author of Three Brains, there is a growing body of evidence to suggest that we actually have three “brains” and that their interaction influences our overall health.† Dr. Jensen suggests, “nutrients from whole foods, exercise, and supplements are effective, non-invasive ways to support the ‘three brains’ interaction and optimize mental health and cognition.”**

COMPREHENSIVE SUPPORT FOR OPTIMAL COGNITIVE HEALTH*

- Supports overall mental health
- Supports gastrointestinal health
- Addresses physical and mental fatigue
- Maintains heart health
- Improves sleep quality

†According to Karen Jensen, in her book: Three Brains: How the Heart, Brain, and Gut Influence Mental Health and Identity.
