Superior Nutrition and Formulations™
Distributed Exclusively by:
Jarrow Formulas®

USAGE: Dissolve 1 lozenge slowly in mouth up to 2 times per day or consult your health care professional. Suitable for adults and children over 5 years of age.

Jarrow-Dophilus® Oral Probiotic Lozenge contains two clinically documented probiotic strains from *Streptococcus salivarius*, BLIS K12™ and BLIS M18™. BLIS K12™ and BLIS M18™ work together to support immune, teeth, gum, ear, nose and throat health, promote fresh breath via secreting Bacteriocin-Like Inhibitory Substance (BLIS) and enzymes, and by competing for oral space.

Lozenge delivery system increases the interaction time of oral probiotics with oral cavity and hence enhances the targeted effects.
