

Jarro-Dophilus EPS

Supports immune function
and intestinal health*

USAGE: Take 1 capsule up to 4 times per day, preferably on an empty stomach, though they may also be taken with food. May increase capsule intake for special needs, such as traveling or take as directed by your qualified health care consultant.

Storage Instructions: Jarro-Dophilus EPS® is room temperature stable and does not require refrigeration. Refrigerating Jarro-Dophilus EPS® is optional and will further extend the shelf-life by safeguarding the product from heat, especially during the hot summer months. Blister packaging each capsule provides extra protection to the bacteria against moisture and oxygen.

The Probiotic Super EnteroGuard® Formula**

Jarro-Dophilus EPS® is a Stable-Dophilus® due to its stability at room temperature and enteric coating, which protects the probiotic bacteria from stomach acid. Eight (8) different strains of probiotic bacteria are delivered directly into the small intestines where probiotic bacteria fully exert their beneficial effects.*

- Delivers probiotic bacteria directly to the intestines with highest survival rate.
- BB536 - a clinically documented strain.*
- Lactococcus and Pedococcus - Potent beneficial bacteria for minimizing putrefaction*
- Supports immune function and intestinal health, especially during traveling.*
