IMPORTANT FACTS YOU SHOULD KNOW

Omega-3 fatty acids support many vital functions in the body.* EPA and DHA have a positive effect on the body's cells and help to support circulatory and joint health and maintain triglyceride levels already within a normal range.* Supportive but not conclusive research shows that consumption of EPA and DHA omega-3 fatty acids may reduce the risk of coronary heart disease. See Supplement Facts for total fat and cholesterol content. Fish Oil 1400 mg is coated to reduce fishy aftertaste.

DIRECTIONS: FOR ADULTS, TAKE ONE (1) SOFTGEL DAILY, PREFERABLY WITH A MEAL.
