CLINICALLY PROVEN JOINT RELIEF FOR MEN†

ON YOUR GAME™ has been clinically proven in rigorous double-blind, placebo-controlled clinical trials. Researchers employed the gold standard WOMAC rating system to measure clinical results. Biochemical markers were used to measure and analyze cartilage fragmentation. All results were measured against a placebo group after 12 weeks and had a "p" value of <0.05 making them statistically significant.

CLINICAL TRIAL RESULTS

- Relieves Joint Discomfort 48%††
- Reduces Stiffness 48%††
- Improves Physical Function 41%††

KEEP OUT OF THE REACH OF CHILDREN. STORE AT 59°-86° F
PROTECT FROM LIGHT AND MOISTURE.

A QUANTUM LEAP IN MEN'S JOINT HEALTH†

Damaged cartilage releases "cartilage fragments" into joints, causing you to experience discomfort, loss of flexibility and diminished range of motion. Your cartilage can become damaged directly due to injury, or indirectly through damage to tendons and ligaments.

In a double-blind placebo-controlled clinical trial, ON YOUR GAME™ was proven to inhibit the fragmentation of cartilage, improve the condition of cartilage, relieve joint discomfort, increase flexibility and increase range of motion in men.†

In a separate clinical trial, ch-OSA®, the active ingredient in ON YOUR GAME™, was clinically proven to generate collagen, the primary component of tendons, ligaments and cartilage.†

CLINICALLY PROVEN CARTILAGE FRAGMENTATION INHIBITOR™††

DAMAGED

Fragments from degrading cartilage cause discomfort and loss of flexibility

HEALTHY

ON YOUR GAME™ inhibits cartilage fragmentation creating increased joint comfort and flexibility†
