The Breakthrough in Collagen!

Collagen is essential for beautiful skin, hair and nails as well as healthy bones and joints.[†] But starting at age 21, collagen diminishes 1% per year. By age 30, the signs become visible. For years, scientists searched for a method to give the human body the ability to regenerate its own collagen. But it took BioSil's landmark discovery of ch-OSA[®] to make it a reality.[†] Its capacity to generate collagen with your own DNA fingerprint makes ch-OSA[®] the genuine breakthrough in collagen.[†]

Consult your healthcare professional prior to use if you have or suspect a medical condition, are taking prescription drugs, or are pregnant or lactating.

Nourish Your Body's 3 "Beauty Proteins" - Naturally![†]

The condition of your skin, hair, and nails depends on three proteins:

Collagen "plumps out" skin, removing wrinkles and preventing them from forming.[†] In addition, collagen is essential for strong, healthy bones and joints.[†]

Keratin is the protein that's packed into your hair shaft. It gives your hair thickness, body, strength, and elasticity.[†] Plus, keratin gives your nails strength.[†]

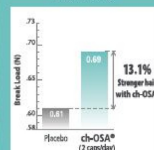

Elastin gives your skin its ability to stretch and "bounce back" preventing fine lines and wrinkles.[†]

With age, collagen, keratin and elastin decline.

BioSil Hair Skin Nails, with clinically proven ch-OSA[®], is specifically formulated to help nourish your body's 3 beauty proteins and restore them to more youthful levels.[†]

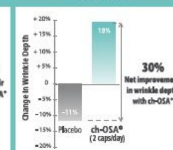

Strengthens Hair

First 36 Weeks

Reduces Depth of Wrinkles

First 20 Weeks
