

USAGE: Take 3 tablets per day, preferably one with each meal or as directed by your qualified health care consultant. **Easy-Solv®** tablets are designed to disintegrate within several minutes of ingestion.

NOTE: If you have a medical condition (especially diabetes or being treated for glucose control), are pregnant, lactating, trying to conceive, under the age of 18, or taking medications (especially for glucose control), consult your health care practitioner before using this product.

Liver PF® combines herbs and other nutrients known to support the liver's detoxification functions.* It is especially directed toward the Phase 2 enzymes, which remove toxins in the liver.* Artichoke and milk thistle extracts have been shown to protect liver glutathione levels and to enhance the synthesis and release of bile, an action important for the elimination of toxins from the body.* PicroMax® contains the compound kutkin that, like silymarin flavonoids in milk thistle, supports the liver's natural regenerative ability, most likely through a stimulation of protein and nucleic acid synthesis.* Pantethine activates alcohol metabolizing enzymes and is a co-factor in carbohydrate and lipid metabolism.* Alpha lipoic acid is an important antioxidant in its own right that also helps the liver regenerate glutathione.* N-acetyl-L-cysteine (NAC) serves as a precursor to glutathione.* Uridine is important in the biosynthesis of DNA and in the preservation and transfer of genetic information.*

Keep out of the reach of children.
