Distributed by Longs Drugs, Walnut Creek, CA 94596 ■■■

For further information contact 1-800-TO-LONGS or Longs.com

Suggested use: Take one tablet two to three times daily with a full glass of water,
preferably after a meal.

Keep out of the reach of children.

Keep in a cool dry place, tightly closed.

Vitamin D assists in the absorption of calcium. Regular exercise and a
healthful diet with adequate calcium are essential in achieving peak bone
mass in teenagers and young adults and maintaining bone health during
adulthood. Individuals who do not store enough calcium throughout their
lives have an increased risk for developing osteoporosis.

While adequate calcium intake is important, daily intakes above 2000 mg
are not likely to provide any additional benefit.
