

Gamma-O For Him is scientifically engineered for men over 30. As a man ages and enters his 30's, a drop in natural hormone production occurs. A decrease in strength and stamina, followed by a decrease in sex drive are typical signs that hormone production is slowing.

Gamma-O For Him is a rice bran extract. **Gamma-O** works on the hypothalamus to affect the pituitary gland which controls the body's endorphin and hormonal release patterns. These hormones include the male sex hormone - testosterone. When testosterone levels decrease, it can cause low sex drive, iron deficiency, and mood changes. A natural increase in testosterone supports anti-aging processes for men. Increasing testosterone production **naturally** rejuvenates and revitalizes the entire body. Studies have shown that men ingesting **Gamma-O** feel younger, have more energy, and have a heightened sex drive.*

Gamma Oryzanol is a combination of substances found in rice bran oil. In Japan, it is widely accepted that rice bran oil contains many beneficial traits. **Gamma-O** acts to inhibit the absorption of cholesterol into the body, helping to naturally maintain cholesterol levels already within the normal range.* **Gamma-O** also possesses strong anti-oxidant properties which protect heart vessels from free radical damage.*
