

*FLIP THE SWITCH.

Research shows that a ketogenic diet can redirect the body's preferred fuel source from carbs to fats.*

Nutritional ketosis is when your body goes from a "sugar burner to a fat burner."*

Medium chain triglycerides (MCTs) such as the caprylic acid found in **MRI KETO!**™ are readily oxidized (burned) in the liver before being stored as fat. To burn more fat, follow a ketogenic diet and exercise program.*

At the same time, **MRI KETO!**™ provides a healthy boost of energy and supports satiety.*

Consult your healthcare professional prior to use if you have or suspect a medical condition, are taking prescription drugs, or are pregnant or lactating. This product is not intended/recommended for children and those sensitive to caffeine. Do not exceed the recommended intake.

WARNING: Each serving contains as much caffeine as about 1 cup of coffee. Limit the use of caffeine-containing medications, foods, or beverages while taking this product. Too much caffeine may cause nervousness, irritability, sleeplessness and occasionally, rapid heartbeat.
