

Gamma-O For Her is an all natural rice bran extract. Gamma-O works on the hypothalamus to affect the pituitary gland which controls the body's endorphin and hormonal release patterns. These hormones include the female sex hormone- estrogen.*

A steady hormonal balance will substantially increase a woman's libido, as well as support the anti-aging process. Perimenopause and menopause have routinely become more difficult for women, leaving them no choice other than prescription drugs to help them. Many of these drugs have undesirable side effects. In studies, over half the women who took Gamma-O daily had a 50% or greater reduction in common menopausal symptoms, especially **hot flashes and anxiety**. With a proper diet and the use of **Gamma-O For Her**, many of the unpleasant side effects of menopause can be minimized.*

Gamma-O for Her is scientifically engineered to support fat metabolism and help women burn excess fat. A proper hormonal balance helps a woman's body run more efficiently, therefore helping to reduce excess body fat, increase energy, and reduce stress.* **Gamma-O** has proven to be safe and non-toxic.
