Why Cleanse The Liver?

- Everything we breathe, eat, drink, and absorb through our skin is purified and detoxified in the liver.

How Does It Work?

- A unique combination of ingredients stimulate bile flow, which help rid the liver of toxins.*
- Once toxins are on the move, you don't want them reabsorbed.
- Complete Liver Cleanse is the answer. It has a specially-designed fiber which binds with toxins so they leave the body.*

Contains no sugar, yeast, dairy products, artificial colors, flavors or preservatives.
