

Hyaluronic acid and collagen are vital components of skin structure that change as we age. They are responsible for the skin's moisture, suppleness, and elasticity. Patented BioCell Collagen® is made from 100% pure cartilage, which has undergone a hydrolysis process that yields low molecular weight hyaluronic acid, chondroitin sulfate, and collagen type II peptides. These elements found in BioCell Collagen® make it a multifaceted ingredient that may help support healthy skin function and appearance, as well as help support joint comfort and function.*

NOTE: If you are pregnant, may become pregnant, or breastfeeding, consult your health care professional before using this product.

Do not use if either tamper-evident seal is broken or missing. Keep out of the reach of children.

Contains no yeast, dairy, egg, gluten, corn, soy or wheat. Contains no sugar, starch, salt, artificial color, flavor, or fragrance.
