

SUGGESTED USAGE: Adults and children ages 7 and up, chew 1 tablet twice daily.

HOW IT WORKS: ProtoFocus™ features Cera-Q™, a unique combination of peptides derived from silk protein. Cera-Q™'s unique structure allows it to easily bind to proteins present in the brain and impact their function in such a way that positively affects cognition.* Cera-Q™ has been clinically evaluated in children and adults and has been shown to enhance normal brain activities including learning, attention, focus and information retention.*

CAUTIONS/INTERACTIONS: Keep out of reach of children. Contains Xylitol, which is harmful to pets.

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

Natural color variation may occur in this product.
