

SUGGESTED USAGE: For children (age 2 & up) and adults: Chew 1 tablet 1 to 2 times daily between meals or on an empty stomach. For children under 2, use only on the advice of your healthcare practitioner.

KEEP LID TIGHTLY SEALED.

KEEP REFRIGERATED TO MAINTAIN POTENCY.

HOW IT WORKS: Probiotics are friendly bacteria that normally colonize the gut where they help to maintain structural and functional integrity of the intestinal lining, support proper intestinal motility, and participate in the detoxification process.* The presence of healthy gut flora is also known to be critical for normal digestion and immune function.* This Chewable ProtoDophilus™ product is a great tasting, broad spectrum probiotic that can be used by both children and adults.*

CAUTIONS/INTERACTIONS: Probiotic supplements may cause mild, but transient GI discomfort. Individuals with severe immune system deficit and those taking immune-suppressing medications should consult their healthcare practitioner before taking this product. Because antibiotics may inactivate some probiotic bacteria, take at least 2 hours before or after taking antibiotic medications.

Contains Xylitol, which is harmful to pets.
