

SUGGESTED USAGE: Take 1 capsule twice daily, or as directed by your healthcare practitioner.

HOW IT WORKS: Sytrinol® is a patented, clinically tested blend of bioflavonoids (Polymethoxylated Flavones) and Tocotrienols extracted from natural citrus and palm fruits. Studies demonstrate that Sytrinol® may help to maintain cholesterol and triglyceride levels already within the healthy range by supporting a balanced production of cholesterol by the liver.* This formula also includes a complementary combination of Milk Thistle, Policosanol, and Alpha-Lipoic Acid.

CAUTIONS/INTERACTIONS: Do not take if pregnant or lactating. Do not take if currently taking any prescription medication (especially blood-thinning, cholesterol-lowering and anti-inflammatory medications) or receiving medical treatment without consulting your physician. Milk thistle may trigger allergic reactions in individuals sensitive to the ragweed and related herbs. Keep out of the reach of children.
