

Natrol® Carb Intercept® supports a low-carb lifestyle by controlling carbohydrates found in breads, cereals, rice, pasta and other starch-containing foods. Each serving provides 1,000 mg of Phase 2 Carb Controller™ Complex, a clinically tested ingredient that inhibits the enzyme responsible for digesting starch into simple sugars your body can absorb. Our new and improved formula also contains Foodbound™ Chromium, which provides 40 mcg of Chromium to help metabolize fats and proteins for energy.*

†This product is to be used in conjunction with a healthy calorie reduction and exercise program.

Consult your healthcare professional prior to use if you have or suspect a medical condition, are taking prescription drugs, or are pregnant or lactating.

STORE IN A COOL, DRY PLACE.
KEEP OUT OF REACH OF CHILDREN.

You can still
enjoy the
foods you
love!

As the building block of life, carbohydrates are a necessary part of the diet, and the body's primary fuel source. Carbs are converted to energy as needed, but stored as fat when there is an oversupply. So what can you do? Try Carb Intercept from Natrol. Each serving of Carb Intercept contains 1,000 milligrams of Phase 2 Carb Controller™ Complex, a clinically tested ingredient that inhibits the enzyme responsible for digesting starch found in many foods such as breads, cereals, rice, pasta and other starch-containing foods.[†]
