

Suggested Use: As a dietary supplement for adults, take 2 tablespoons (1 fl. oz.) daily in juice or water.

**SHAKE WELL BEFORE USING. REFRIGERATE AFTER OPENING.
KEEP OUT OF REACH OF CHILDREN.**

Store in a cool, dry place. Please Recycle. MADE IN THE U.S.A

Vitabase Raspberry Flavored Colloidal Minerals is a pleasant tasting blend of highly absorbable, water-soluble minerals. Each 1 ounce serving contains trace levels of many major and trace minerals.

The following minerals occur naturally in humic shale:

Boron	Magnesium	Selenium
Calcium	Manganese	Silver
Chromium	Molybdenum	Sodium
Copper	Phosphorus	Sulfur
Iron	Potassium	Zinc

Aluminum is the most abundant element in the earth's crust and is naturally present in humic shale. The naturally occurring aluminum content in this product has been reduced to a safe level less than 1 mg per serving. This is less than 5% of the daily aluminum content in the typical American diet and 90% less than other colloidal mineral products tested.

This product has been carefully water processed and then screened with a proprietary micron-filter process to remove harmful levels of all major heavy metals. Contains less than 1 ppm of arsenic, cadmium, lead and mercury.
