General Health

NOW® Cranberry Mannose Packets is a women's probiotic formula with Cranberry and D-Mannose, which are two well-researched ingredients for urinary tract care.* Our immune-supporting blend of 10 probiotic bacterial strains assists in the maintenance of a woman's delicate microbial balance.* Cranberries naturally possess flavonoids and other bioactive components that can also promote normal urinary tract ecology by supporting a healthy mucosal surface within the bladder.*

D-Mannose is a naturally occurring simple sugar that is metabolized only in small amounts by the body, with the remainder being rapidly excreted with the urine. In the urinary tract, D-Mannose interferes with particle attachment and allows everything to be flushed out in the urine stream.* Clinical studies have demonstrated that when taken regularly, D-Mannose can help to maintain a healthy urinary tract.* Because insubstantial amounts of D-Mannose are used by the body, it does not interfere with healthy blood sugar regulation.*

Suggested Usage

Empty 1 packet into 4 to 6 oz. of water.
Use 1 packet 1 to 3 times daily.
