

Why do women around the world use Promensil?

Clinical research has shown that in cultures consuming a natural diet abundant in isoflavones women have fewer and milder menopausal symptoms. Promensil active ingredients are Red Clover isoflavones, which complement the body's declining estrogen levels around menopause, to help relieve menopausal symptoms and promote breast health and heart health.[†]

May Help

- ✓ Reduce frequency of hot flashes[†]
- ✓ Relieve severity of hot flashes[†]

Promotes

- ✓ Breast health[†]
- ✓ Heart health[†]
- ✓ Emotional well being[†]
