

General Health

Family owned since 1968.

Suggested Usage: Take 1 capsule 1 to 2 times daily. Pterostilbene is a naturally occurring polyphenol closely related to Resveratrol. It is, however, more readily absorbed and utilized by the body.* Emerging research suggests that Pterostilbene may help to support healthy vascular function, maintain proper cell cycle regulation, and can promote a healthy response to normal cellular stress.* NOW uses all-trans-Pterostilbene, which has been clinically evaluated for its superior bioavailability. Trans-Resveratrol is added as a natural complement to Pterostilbene's metabolic activities.*

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

Caution: For adults only. Resveratrol may interact with many pharmaceutical medications (especially anticonvulsants and NSAIDs, including diclofenac). Consult physician if pregnant/nursing, taking medication, or have a medical condition before using this product. This product may cause digestive upset in some sensitive individuals. If you experience any gastrointestinal discomfort after using this product, discontinue use. Keep out of reach of children.
