ITEM: 4723.911 F: 3001124 B: 2007410-15234

Superior, Triple-Shell Protection

Natrol® Probiotic Acidophilus BioBeads® are uniquely protected by an advanced triple shell that ensures viability through all three biophases:

Biophase 1: Targeted-release technology helps guarantee BioBeads potency on the shelf, and protects viable microflora all the way to ingestion.

Biophase 2: Bead passes safely through the acidic stomach environment unharmed.

Biophase 3: Inner layer gently breaks down, releasing proprietary blend of probiotics that helps support digestive health and immunity.

Directions: Take 1 bead daily.
