um Phase @

Carbohydrates are a necessary part of the diet, and the body's primary fuel source. Carbs are converted to energy as needed, but stored as fat when there is an oversupply.

So what can you do?

Try Carb Intercept® 3 from Natrol®

1. CONTROL IT

Carb Intercept 3 contains Phase 2 Carb Controller®, a clinically tested ingredient that may reduce the enzymatic digestion of dietary etarchae †A

2. BURN IT

Carb Intercept 3 includes Green Tea and Caffeine which may help rev up metabolism and calorie-burning Includes Green Tea extract with antioxidant activity of EGCG to help neutralize free radicals produced by regular exercise and Caffeine to promote energy and mental alertness.1

3. ENERGIZE IT

Carb Intercept 3 contains Chromium, to help the body metabolize fats for energy. Chromium is essential for the proper action of insulin in the body. Insulin is a key hormone that regulates carbohydrate and fat metabolism in the body.†

Lose Weight, Feel Great!#

Carb Intercept® 3 is a truly advanced formula to help support your weight loss efforts. This product should be combined with a healthy calorie reduction diet and exercise program to achieve best results.1

And while regular exercise is good for your figure and your health, it can generate free radicals. These damaging compounds can cause harmful oxidative stress. Green tea has powerful antioxidant activity that can help your body stand up to these free radicals. And that's important when you are trying to get in shape.†

This product is intended to be used in conjunction with the Natrol® healthy, reduced calorie diet and exercise plan on natrol.com. Individual results may vary.

WARNING: Consult your healthcare professional prior to use if you suspect a medical condition, are taking prescription drugs, or are pregnant or lactating.
