IMMUNITY & DIGESTIVE HEALTH

Probiotic High Potency

What's the benefit of BIO-tract® Delivery System?

- Provides Gastric Acid Protection

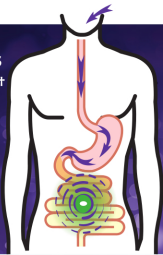

Powders, liquids and capsules, even cultured dairy products, do not provide protection from stomach acid causing the vast majority of live probiotics to die before they reach the lower gastrointestinal tract.†

BIO-tract® patented probiotic delivery system protects probiotics from gastric acid, enabling live probiotics to reach optimal sites in the gastrointestinal tract.†

- Continuous Release Probiotic Delivery
Natrol® Probiotic High Potency is continuously released to provide optimal delivery of live organisms through the digestive tract.†

NATROL® BIO-tract® DELIVERY SYSTEM

- * Protects probiotics from stomach acid.†
- * Delivers optimal continuous release of live organisms throughout the digestive tract.†

Exclusive 10 Strain Formula

Most probiotic products only have one to two strains. **Natrol® Probiotic High Potency** contains ten strains of live cells that are naturally derived and are not genetically modified.†
