

X-Factor™ Gold Concentrated Butter Oil is pure oil from cows grazing on 100% rapidly growing green grass extracted and concentrated through centrifugation. The speed of the grass growth, timing of the grazing of this grass, species of grass, climate and extraction method are all important factors in making real X-Factor™ Gold Concentrated Butter Oil.

Dr. Weston A. Price first developed butter oil produced by a centrifugal process in the 1930's, but the pinnacle of his discovery was the synergistic effect when combining butter oil with traditional cod liver oil.
