Research shows that turmeric root supports the body's healthy inflammatory response.¹ **TURMERIC 500™** provides 500 mg per tablet of curcuminoids, the active components of turmeric. Turmeric supports the liver and its detoxifying properties, and has powerful antioxidant activity. Turmeric is difficult to absorb, so BioPerine® is added to enhance bioavailability.*

¹ Not all inflammation is associated with disease states. Inflammation is also the body's healthy immune response to life's normal stressors such as strenuous exercise or an occasional high-fat/high-calorie meal. The body's inflammation response to life's occasional, normal stressors is important for optimal health.*
