Why GNC Probiotic Solutions Weight Management Support?

- Multiple strains of live, active probiotic cultures
- Specialized probiotic strains to impact fat absorption**
- Powerful Citri-Sculp™ blend to support body composition and fat metabolism**
- Guaranteed potency through expiration date
- No refrigeration necessary
- Gluten free

*Results are based on in vitro laboratory testing combining Lactobacillus reuteri JBD301 with fat. The JBD301 probiotic strain demonstrated significantly fewer fatty acid uptake vs. a common Lactobacillus control, which may reduce availability of fat for absorption.

**A randomized, double-blind, placebo-controlled clinical study consisting of 95 overweight, healthy participants compared the use of Citri-Sculp™ Blend to a placebo, both in conjunction with a calorie-restricted diet and physical activity plan. After 12 weeks, subjects receiving Citri-Sculp™ Blend had significantly greater improvements in body composition, antioxidant status and serum free fatty acids.
