

**USAGE:** Take 1 capsule 1 or 2 times per day, preferably with juice on an empty stomach or as directed by your qualified health care consultant.

**NOTE:** If you have a medical condition (especially bipolar, high blood pressure, or a history of malignant melanoma), are pregnant, lactating, trying to conceive, under the age of 18, or taking medications (especially MAO inhibitors), consult your qualified health care practitioner before using this product.

**N-Acetyl Tyrosine** is an acetylated derivative of the amino acid L-tyrosine. Ordinary L-tyrosine is less stable and also less soluble in water, which may result in reduced bioavailability. Acetylation enhances the solubility and stability of certain amino acids.\*

N-Acetyl Tyrosine supports brain function by improving the synthesis of the catecholamines norepinephrine and dopamine (neurotransmitters).\*

**Keep out of the reach of children.**
