Mucolyxir®

Mucolyxir® provides a small amount of DNA from wild Pacific salmon. Based on pre-clinical investigations and clinical trials, Mucolyxir® appears to support liquification and elimination of mucoid substance.*

Suggested Use

As a dietary supplement, 1 or 2 drops, placed in mouth slowly, then swallowed, one to four times per day, or as directed by a healthcare practitioner. To avoid dilution, do not eat or drink for 5 minutes after taking.

First time use: To get liquid flowing, follow this one-time procedure. With uncapped bottle upright, carefully pull out plastic insert from top of bottle, and then replace it securely.

Additional Usage Notes: At the start of use, individuals may take more, as follows:

Day 1: Take 1 drop every fifteen minutes for one hour. Then take 1 drop every hour until bedtime.

Days 2 and 3: Take 1 drop after each meal and before bed (4 times total).

Day 4 and beyond: Maintain schedule or use only as needed.

Caution: Some individuals may experience increased mucus excretion with only 1 or 2 doses.
