

USAGE: Take 1 softgel per day with a meal or as directed by your qualified health care consultant.

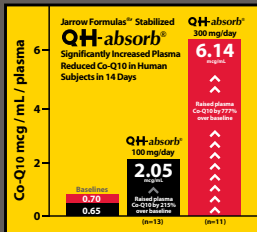

Ubiquinol is the reduced (active antioxidant) state of Co-Q10, the form produced by our cells and is significantly better absorbed as a supplement, particularly as we age.

Jarrow FORMULAS® QH-absorb® is a proprietary enhanced stability formula, which has been clinically shown in humans to increase Co-Q10 levels up to 777% (6.14x) over baseline at 300 mg per day intake.

Keep out of the reach of children.
