

Enzymes are naturally present in most of the foods we eat. Many of the benefits of food enzymes are lost in our modern diet due to food processing and cooking. These EnzymeActive™ enzymes help restore some of the enzymes of whole foods to the diet.*

Vitamins and certain minerals function as co-enzymes, which means they must be joined with other enzyme forms to accomplish their functions. EnzymeActive™ supplements can help supply food enzymes to your body.*

Keep out of reach of children. Safety sealed with printed outer shrink-wrap and inner seal. Do not use if either is broken or missing. Store in a cool, dry place.
