

Suggested Use: Consume 1-4 scoops depending on your calorie and protein requirements. For each scoop, add 4-6 ounces of cold water, milk or your favorite beverage to a shaker cup or blender and mix for 30-45 seconds. Vary the amount of liquid to meet your desired taste and consistency. Using nonfat milk instead of water will give you a thicker, creamier shake.

Between Meals: Consume between meals to maintain positive nitrogen balance and support a high-calorie diet.

Post-Workout: Consume 30 minutes following exercise to replenish glycogen and support maximum recovery.

HIGH CALORIE ENHANCED PEPTIDE EXTREME MASS GAINER PROTEIN

Extreme Mass uses a scientifically advanced protein formula that feeds your muscle with 53 grams of amino packed protein in a steady stream lasting up to 3 hours. 70% of the total protein comes from pure WPC 80 for quick absorption into muscle, and 30% comes from pure Micellar Casein for sustained release protein absorption.
