

The kidneys play a major part in regulating fluid balance but also have a significant role in detox and balancing blood minerals like sodium and calcium. Several techniques and herbal applications, originally outlined by Ayurveda, are only now being understood by science.

Shilajeet and Cyperus are among the ingredients included in UriCare®, which tone and comfort the urinary tract, kidneys and bladder to promote ease of flow.*

Featured herbs on front: Shilajeet (pitch), Little ironweed (aerial parts) & Cyperus (aerial parts)

HAPPINESS THROUGH WELLNESS

Crafting traditional medicines based on Ayurveda, a 5,000 year old science that believes the journey back to wholeness begins with nurturing the capacity for joy.

Trusting the gifts of nature and the irreplaceable relationship between the plant and its native soil for consistent healing properties.

Contributing to the wellness of the earth by teaching our family of farmers to grow native plants sustainably on their land and reduce the demand on the local environment.

Building communities by advocating women in farming, protecting fair prices, providing maternal health, sponsoring clinical services and offering school wellness programs.

Believing that if wellness is the path to happiness, we must contribute to the wellness of all things. Wellness of people, wellness of the environment, wellness of our communities.
