

Our cartons are made from 100% recycled fibers, including 40% post-consumer material. Our glass bottles contain at least 48% recycled content.

In the ancient Ayurvedic texts, Guggul, which translates to protector, was commonly included in formulas as it was believed to tone digestion and the liver, making other ingredients more effective.*

Today, researchers have focused on its potential to support total cholesterol count with particular attention to HDL and LDL cholesterol already within the normal range.*

Featured herb on front: Guggul (crystallized resin)

HAPPINESS THROUGH WELLNESS

Crafting traditional medicines based on Ayurveda, a 5,000 year old science that believes the journey back to wholeness begins with nurturing the capacity for joy.

Trusting the gifts of nature and the irreplaceable relationship between the plant and its native soil for consistent healing properties.

Contributing to the wellness of the earth by teaching our family of farmers to grow native plants sustainably on their land and reduce the demand on the local environment.

Building communities by advocating women in farming, protecting fair prices, providing maternal health, sponsoring clinical services and offering school wellness programs.

Believing that if wellness is the path to happiness, we must contribute to the wellness of all things. Wellness of people, wellness of the environment, wellness of our communities.
