Premium Whey Protein Isolate/Hydrolysate*

ISOLATE[®]

PROTEIN

Formulated with
Instantized BCAAs

Performance[®]

Siren Labs' **ISOLATE PROTEIN** is a precise ratio and superior blend of instantized whey protein isolate, whey protein hydrolysate, L-glutamine and instantized BCAAs, resulting in a premium source of protein for maximum performance.*

PURE PROTEIN GUARANTEE: Siren Labs' **ISOLATE PROTEIN** is formulated with only pure sources of protein and no amino spilling.

BIOAVAILABILITY: The protein sources found in this product rank among the highest on the biological value scale.

Muscle[®]

Amino acids are the fundamental building blocks of muscular development. Although your body needs fat and carbohydrates to function, you simply cannot build muscle without protein. Intense physical activity causes micro tears within the muscle and depletes internal protein stores. Supplementation helps to replenish these stores allowing for muscle repair and growth.*

Recovery[®]

Siren Labs' **ISOLATE PROTEIN** is enhanced with added glutamine and added instantized BCAAs, offering you a delicious tasting protein to support muscle repair and faster recovery.*

SUGGESTED USE: Once per day as a dietary supplement, consume 1–3 scoops of Siren Labs' **ISOLATE PROTEIN** in 8–16 oz. of cold water within 30 minutes of your workout to maximize recovery and facilitate muscle tissue growth.* **FOR INCREASED RESULTS,** take twice a day, pre- and post-workout.

NOTE: Formulated with instantized protein, Siren Labs' **ISOLATE PROTEIN** is designed to mix easily with minimal foaming and does not require the use of a blender to dissolve in liquids. If extra thickness is desired, add a handful of ice cubes and blend. Due to settling, a natural occurrence with powders, variations in the powder height level may vary from bottle to bottle. Additionally, powder density may be affected as a result of the settling which may cause slight variations in the scoop serving size. To be used as part of a physical conditioning program.

WARNING: If you are pregnant, nursing or taking medications, consult your doctor before use. Discontinue use and consult your doctor if any adverse reactions occur.
