

NON-GMO GLUTEN ERFE

Ayurveda teaches that the skin is a mirror to the health of the liver and blood. The ancient texts described specific plants that alter blood chemistry to promote detox and the appearance of healthy looking skin.*

Neem and Turmeric, included in DermaCare®, are among the most powerful plants identified and are now called alteratives by modern researchers, meaning they positively alter the blood.*

DermaCare purifies the blood by promoting detox to reduce dryness and brighten the skin's appearance.*

No ingredients of animal origin

HAPPINESS THROUGH WELLNESS

Crafting traditional medicines based on Avurveda, a 5,000 year old science that believes the journey back to wholeness begins with nurturing the capacity for joy.

Trusting the gifts of nature and the irreplaceable relationship between the plant and its native soil for consistent healing properties.

Contributing to the wellness of the earth by teaching our family of farmers to grow native plants sustainably on their land and reduce the demand on the local environment.

Building communities by advocating women in farming, protecting fair prices. providing maternal health, sponsoring clinical services and offering school wellness programs.

Believing that if wellness is the path to happiness, we must contribute to the wellness of all things. Wellness of people. wellness of the environment, wellness of our communities
