STORE IN A COOL, DRY PLACE.

Do not use if either tamper-evident seal is broken or missing. Keep out of the reach of children.

AHCC® (Active Hexose Correlated Compound) is a proprietary compound produced from mushroom mycelia cultivated in rice bran extract and treated with enzymes in a patented process. Considered a superfood in Japan, AHCC has been researched extensively for its immune enhancement properties. According to human and animal research, AHCC may significantly increase natural killer (NK) cell activity. AHCC may also increase macrophage activity, enhance cytokine production, and support the healthy functioning of the liver.*

AHCC® is a registered trademark of Amino Up Chemical Co., Sapporo, Japan.
