

Our cartons are made from 100% recycled fibers, including 90% post-consumer material. Our glass bottles contain at least 48% recycled content.

Ayurveda describes the human body as annamaya, or made of food. Indeed, our food's life-yielding essence is extracted through our digestive system and ushered into the blood until it becomes our very own being.

This idea led the early authors of Ayurveda to seek out specific foods, like Amla and Ashwagandha, that feed the life force they called ojas. These plant foods, included in ImmunoCare® speak the wisdom of nature to immune cells that defend and protect.*

Featured herbs on front: Ashwagandha (aerial parts), Licorice (root), Guggul (crystallized resin) & Amla (dried fruit)

HAPPINESS THROUGH WELLNESS

Crafting traditional medicines based on Ayurveda, a 5,000 year old science that believes the journey back to wholeness begins with nurturing the capacity for joy.

Trusting the gifts of nature and the irreplaceable relationship between the plant and its native soil for consistent healing properties.

Contributing to the wellness of the earth by teaching our family of farmers to grow native plants sustainably on their land and reduce the demand on the local environment.

Building communities by advocating women in farming, protecting fair prices, providing maternal health, sponsoring clinical services and offering school wellness programs.

Believing that if wellness is the path to happiness, we must contribute to the wellness of all things. Wellness of people, wellness of the environment, wellness of our communities.
