WHY THIS WHEY IS BETTER

Make your protein count. This virgin whey protein is made with milk from pasture-raised cows and has pasture-raised colostrum added to give you more IgG proteins[‡] than regular whey. It was minimally processed at low temperatures to keep those valuable proteins intact, and it's mixed with Bulletproof™ XCT[+] oil for added energy. That's nutrition nerd talk for: this whey gives you more bang. A lot more bang.

SERVE IT COLD

Don't heat it! The good stuff in Bulletproof Whey Protein starts to break down at warmer temperatures. You work too hard for that. If you're looking for a protein that can take the heat, try Bulletproof™ Collagen Protein or Collagelatin.™

DIRECTIONS:

Mix 2 scoops in 4–8 ounces of unheated water or whatever you'd like. Bulletproof Whey Protein is flavorless and odorless so it mixes well with just about everything.

THE BULLETPROOF YOU

What else are you capable of? More than you might think. Being Bulletproof is a science-based approach to nutrition and life—tried, tested and proven to help improve human performance in athletes, mathletes and anyone who wants to be more awesome.
