

DO MORE. CRAVE LESS.

This is your fuel to power brain and body! Brain Octane® oil gives your body what it needs—an efficient high-energy fuel. It is totally flavorless and totally satisfying—great on salads, mixed into smoothies, and a key ingredient in the Bulletproof® Coffee recipe.

THE SCIENCE

Brain Octane oil keeps your brain on full blast and your belly slim. It's a brain-boosting fat, extracted from the most potent part of the coconut, that is converted into brain-fueling, fat-burning ketone energy more efficiently than MCT or coconut oils that contain Lauric Acid! What's that mean for you? More brain power and lasting energy with fewer cravings.

Love it or your money back.

DIRECTIONS

Try one teaspoon at a time first and then build up over several days to a full 1-tablespoon serving, as often as you'd like. Just start small—too much too soon can upset your stomach.

For low temperature cooking only.
Do not heat above 320°F.
