Turmeric Supreme Pain

For thousands of years Turmeric has been valued in Ayurveda, the traditional medicine system of India. Today, science has identified compounds in Turmeric, Curcumins in particular, which support healthy inflammatory function—maintaining overall health and vitality.*

Turmeric Supreme Pain combines Turmeric with other herbal extracts to support a healthy pain response.* Feverfew, Devil's Claw, and Ginger have each been studied for their role in supporting the body's reaction to occasional pain.* Black Pepper extract is included for increased absorption and bioavailability of Curcumins.*

The Gaia Difference
