Natural Astaxanthin 1.5% Beadlets	12 mg	*

* Daily Value not established.

Other Ingredients: Gelatin Capsule, Microcrystalline Cellulose, Magnesium Stearate and Silica.

Astaxanthin is one of nature's most potent antioxidants and free radical scavengers. It has the unique ability to cross the brain-blood barrier into cells in the eye and the nervous system to aid your body's ability in preventing oxidative damage to both kinds of tissues. Astaxanthin is many times more potent than many common antioxidants, including Vitamins C and E, and Beta Carotene. In fact, one scientific study showed that Astaxanthin is 6000 times better at neutralizing singlet oxygen free radical than Vitamin C.†

The eye protective benefits of Astaxanthin are shown in US Patent No. 5,527,533.†
