

NutriClean®

digestive, liver and colon maintenance†

Probiotics

30 Tablets

Dietary Supplement

This high-quality formula uses BIO-tract*† technology, which is a unique delivery system that protects probiotic organisms from stomach acid on their way to the intestinal tract, assisting a significantly higher percentage of organisms to reach the intestine alive.

This formula also uses LiveBac*†† technology, which is a unique tableting process to deliver high-viability probiotic products that are far less susceptible to damaging environmental factors. Extended shelf life is achieved.

Directions for use: As a dietary supplement, prior to the first meal of the day, take 1 tablet, or take as directed by your healthcare provider.

WARNING: If you are currently using prescription drugs or have an ongoing medical condition, you should consult your healthcare provider before using this product. Women who are pregnant or breastfeeding should not use this product.
