

Magnesium helps to regulate calcium transport and stimulates the secretion of calcitonin, a hormone that aids in the influx of calcium into bone. Magnesium also works with ATP to release the energy needed for most reactions in the body. It plays an important role in healthy nerve and muscle function. Calcium provides the building blocks that help keep bones and teeth strong and healthy. This formulation offers multiple forms of magnesium and calcium providing a 2:1 magnesium to calcium ratio.*

†US Patent No.'s 6,706,904 and 6,716,814 licensed by Albion International, Inc.

Carefully Manufactured by:
Solgar, Inc.
