

Doctor's Best Fully Active Folate with Quatrefolic® is the natural form of folic acid. Functional deficiencies of the essential nutrient folate (folic acid) are common, and can impair key life processes including gene-level regulation, cell growth patterns and tissue repair. Fully Active Folate provides MTHF (5-methyltetrahydrofolate), the folate form most directly required for DNA regulation and other fundamental metabolic processes. Vitamin C is included for added stability.*

Identical to the body's most highly active folate form*

Helps correct inherited and lifestyle-related folate deficiencies*

Helps support healthy mood, memory, circulation and well-being*
