Xtend-Life™ Omega 3 / DHA Fish Oil is a unique blend of natural oil extracted from Hoki (New Zealand Whiting) and molecularly distilled, concentrated Tuna Oil (2000 mg/serving).

The Hoki Oil (New Zealand Whiting) used in this product comes from the pristine waters of the Southern Ocean of New Zealand.

The Tuna Oil component goes through a special process (in addition to molecular distillation) resulting in a level of purity rarely achieved in other fish oils.
