Doctor's Best Pea Protein Powder with ProHydrolase® is a natural vegan source of protein. Pea protein has a rich amino acid profile, essential for several metabolic processes. Amino acids are necessary to build structural proteins such as collagen, enzymes, antibodies, transport molecules, muscles and hormones. Adding ProHydrolase® helps to break down proteins into a more easily digestible form for maximum absorption.* This helps the body take full advantage of the availability of these essential amino acids for building muscle and improving muscle recovery.* Blend with water or create your favorite fruit or vegetable shake.

Helps provide essential amino acids*

Helps improve protein digestion*

Helps meet some of your daily protein requirements*

Helps provide a vegan protein source*

Helps reduce the potential for discomfort that often is a result of consuming protein*

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.
