CholestOff® Caplets are made to Nature Made's guaranteed purity and potency standards.

Reducol™ is a trademark of Pharmachem Laboratories Inc.

CholestOff® Original lowers cholesterol.*

- Helps lower LDL ("bad") cholesterol*
- Supplies 900 mg of plant sterols and stanols per serving for a daily intake of 1800 mg

A healthy cholesterol level is an important part of heart health.* CholestOff® Original is made with Reducol™, a proprietary blend of plant sterols and stanols (also called phytosterols) that can help lower LDL ("bad") cholesterol by reducing the absorption of dietary cholesterol into the bloodstream.*

The National Institutes of Health (NIH) Therapeutic Lifestyle Change Guidelines recommends 2000 milligrams of plant sterols and stanols as part of a therapeutic diet to help lower cholesterol. However, many Americans only consume 200 milligrams through their diet.

CholestOff® Original provides the additional 1800 milligrams of plant sterols and stanols needed to help meet what the NCEP recommends for cholesterol reduction. Products containing at least 400 mg per serving of plant sterols and stanols, eaten twice a day with meals for a daily intake of at least 800 mg as part of a diet low in saturated fat and cholesterol, may reduce the risk of heart disease. One serving of Nature Made CholestOff® Original supplies 900 mg of plant sterols and stanols per serving for a daily intake of 1800 mg.

Nature Made CholestOff® Original is guaranteed to meet our high quality standards – it is made from carefully selected ingredients under strict manufacturing processes.

- Colors Derived from Natural Sources-No Synthetic Dyes
- No Artificial Flavors
- No Preservatives
- No Yeast or Starch
- Gluten Free
